## How Frequencies Benefit the Human Body

It has been discovered that the cells in the body vibrate at various frequencies depending on their state of health. ZeroPoint has identified specific frequencies that match the optimum state of health for each of the body's organs and systems. These are called Blueprint Frequencies.

When you hold the NaturaLaser on the area of pain, your body begins to 'resonate with the frequencies' that are programmed in the NaturaLaser. This is similar to a tuning fork that will pick up the frequency (sound) of another tuning fork in its vicinity. When they are close to one another, they will both begin to 'resonate at the same frequency'.

When the organs and systems of the body are attuned with the frequencies that are in the NaturaLaser, the body returns to a balanced state. The body is able to protect and heal itself when it is in a state of perfect balance.

## Reported Uses

**ACUPUNCTURE MERIDIAN OPENING:** Shine the NaturaLaser Pointer at tips of each finger and toe with the red light for several seconds. In addition, place the light on the lower knuckle of each finger to open these meridians to specific organs (Refer to Voll point chart)

**ADD/ADHD:** Run the NaturaLaser Pointer around the ear lobes (auricular points), shine at middle of tongue, shine across the line at base of skull and up along the midline of the head. This can also be useful for autism and other learning and brain dysfunctions.

## Testimonials

*"I have dealt with high blood pressure for numerous years. Recently, it had gotten so bad I believed it was time to write my final wishes for the benefit of my family. I had called my son to my house on a morning when my blood pressure was extremely high-something like 225 over 119.*

*While he was there, I had the thought of asking him to use the Naturalaser Pointer across my lower back and up and down my spine. He took a few seconds to do so and then I retested myself. My blood pressure had dropped considerably to 160 over 80. I asked him to use the Naturalaser Pointer again and retested. My blood pressure was normal! I have noticed in the weeks to follow that my blood pressure continues to rise, but as long as I use the laser every time, it is controlled! My only task is finding someone to run the Natrualaser Pointer up and down my spine as I live alone, but if that is the only challenge, I guess I can overcome that one! Gratefully," - Reuben S., NC*

Before

After

*"I was smacking my shoe on wall to get the sand out. I forgot that is where the wasps are... I got stung right in the face... These guys sting really hard. A pain shot down through the whole side of my face immediately, my jaw felt tight... It brought me to tears, and the whole side of my face was swollen and very red - even my nose, up to my forehead. I used the Naturalaser Pointer for a few minutes, on and off for a few hours. My co-worker, who thought I would be like that for a day or two, could not believe how much the swelling and redness went down so fast!" - Sierra, Costa Rica*
